

Product Change Notification

105710 - 00

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 105710 - 00
Change Title: Intel NetStructure® SS7 Signaling Gateway SS7G21xxx and SS7G22xxx, PCN 105710-00, FYI, Added EU WEEE (Waste Electrical and Electronic Equipment Directive) label to SS7 System Level products
Date of Publication: December 22, 2005

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Marking

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jan 09, 2006
Date of First Availability of Post-Conversion Material:	Jan 09, 2006

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

Added the EU WEEE Directive (Waste Electrical and Electronic Equipment) symbol labeling to the SS7G21 and SS7G22 product lines. The labeling is shown below.

The purpose of this symbol is to indicate to the end-user that when the product reaches end-of-life it should not be disposed of as household waste, but should be recycled.

Customer Impact of Change and Recommended Action:

Product recycling and end of life take back systems and requirements vary from country to country. Please contact the retailer or distributor of this product for information on product recycling and/or take back.

Distributors can use the -00x suffix of the TA# marked on the outside of the box to identify WEEE marked product, without needing to open the outer packaging. See the table below for TA#s.
