Product Change Notification

Change Notification #: 103898 - 00
Change Title: BCP8X16R3PCI Kit, PCN 103898-00, FYI, Replace D120JCTLS Non- Universal Board with D120JCTLSU Universal Board in the BCP Kit
Date of Publication: April 14, 2004

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jun 07, 2004
Date of First Availability of Post-Conversion Material:	Jun 07, 2004

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

One of the boards that makes up the BCP Kit is the D120JCTLS. Generate a new BCP kit that replaces the D120JCTLS (non-universal) board with D120JCTLSU (universal) board. Universal PCI form factor support allows boards to be plugged into +5volt or +3.3volt signal interface PCI backplane slots.

Customer Impact of Change and Recommended Action:

Customers have requested a change from the D120JCTLS (non-universal) to the D120JCTLSU (universal) board.

BCP kit BCP8X16R3PCI will no longer be available. The new BCP kit, BCP8X16R5PCI, can be used in place of BCP8X16R3PCI kit.

Note that BCP8X16R5PCI requires System Software Release SR5.1.1FP1 for Windows or a later release.

This change has been thoroughly evaluated to ensure that it does not have any negative functional implications to our customer.

Customers should modify their databases in order to place orders against the new order codes. See details below.

Products Affected / Intel Ordering Codes:

Products Table

Affected Product Code	Pre-Change MM#	Affected Product Code	Post-Change MM#
