Date of Publication: August 01, 2017

Key Characteristics of the Change:
Label

Forecasted Key Milestones:

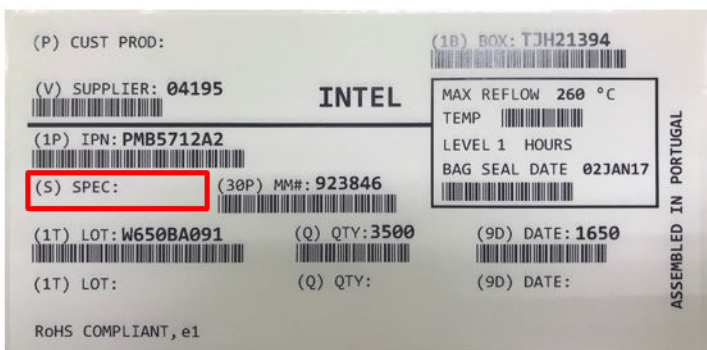

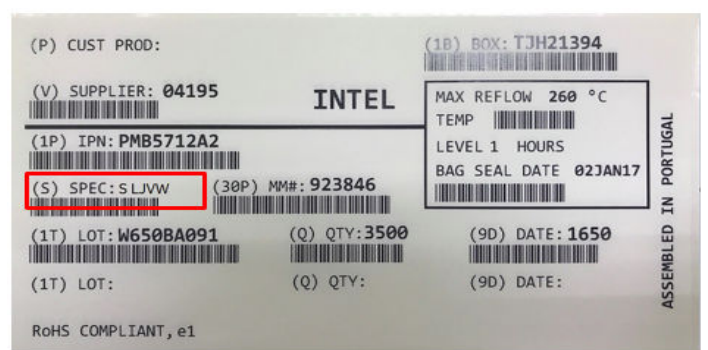

Date Customer Must be Ready to Receive Post-Conversion Material:	September 01, 2017
---	--------------------

Description of Change to the Customer:

Intel Corporation is making changes on the label information for our Modem and Cellular devices. Due to this change, additional information will be reflected in Intermediate Box Label (IBL) that is placed on the Moisture Barrier Bag (MBB), Reel and Pizza Box.

Due to the change, the SPEC field in the label will reflect the S-Spec specification number which was not previously available.

The label below is a representation for example purposes only. The actual label will reflect correct S-Spec code according to product specific data.

Customer Impact of Change and Recommended Action:

Intel anticipates no impact to customers for this change. The change does not impact form, fit, function and reliability of the product. Customers may want to notify their respective Contract Manufacturer and/or receiving department of the additional SPEC code information reflected on the label.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customer will need to manage and migrate to the post-conversion material as soon as possible.
