Product Change Notification

Change Notification #: 107811 - 00

**Change Title: Intel® Wireless WiFi Link 4965AGN Skus:
4965AGNMJPGN, JPWB (MM#s 886437, 886732),
PCN 107811-00, Product Design, Addition of JP
Midband/40Mhz FAT Channel Functionality**

Date of Publication: August 16, 2007

Key Characteristics of the Change:

Product Design

IBL Abstract:

Addition of JP Midband/40Mhz FAT Channel Functionality

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Sep 07, 2007
Date of First Availability of Post-Conversion Material:	Sep 07, 2007

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

This ECO will incorporate the following changes:

1. Incorporate mid band (channels 100-140) and 40 Mhz FAT channel functionality into the 4965AGN JP SKUs This change requires EEPROM update and a new DSPR approval ID.
2. Update the Intel internal tracking numbers on the 4965AGNMJPGN SKU.

Customer Impact of Change and Recommended Action:

Customer will receive product with the following changes:

1. Incorporated JP Mid-band/40Mhz FAT Channel functionality via the following EEPROM updates.
 - a. Mid-band: Change channels 100-140 from NO SCAN to PASSIVE SCAN.
 - b. Enable 40Mhz FAT Channel functionality.
 - c. Update power levels to conform to regulatory requirements.
2. Implemented new DSPR #s.
003WW070360000
003XW070200000
003YW070130101
3. Updated Intel internal tracking #s on 4965AGNMJPGN:
 - a. HW Rev 0B (Embedded in CT barcode on product label)
 - b. Change from CP024168-01 to CP024168-02 on the outer box label
4. Dash to the TA #

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

For your information only. No change to form fit or function. No change to Intel Ordering codes.

Milestone dates are estimates and subject to change based on business and operational conditions.
