Change Title: Intel® Dual Band Wireless-N 7260,
Product Code 7260.NGWG.NV,
PCN 115636-00, Label,
SKU Re-activation and Label Update
Date of Publication: June 27, 2017

Key Characteristics of the Change:

Label

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	June 30, 2017
---	---------------

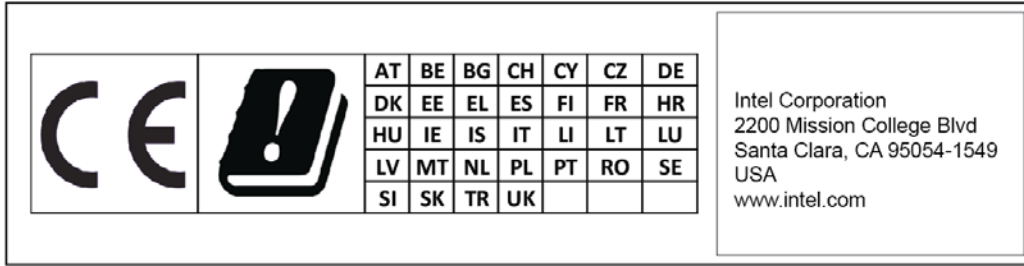

Description of Change to the Customer:

A selected SKU in the Intel® Dual Band Wireless-AC 7260 product family has been re-activated to accommodate a last time buy. As a result, we will be updating the SKU to be compliant with the new European Radio Equipment Directive 2014/53/EU. Please review changes below:

1. The current CE ! Mark on the module will be modified to remove the Alert Symbol (!) following the CE mark. Example of CE mark change on PCB artwork:

2. We will be adding 2 graphics to the outer packaging to be visible by EU customs.
 - a. A new CE graphic
 - b. The Intel Corporate address

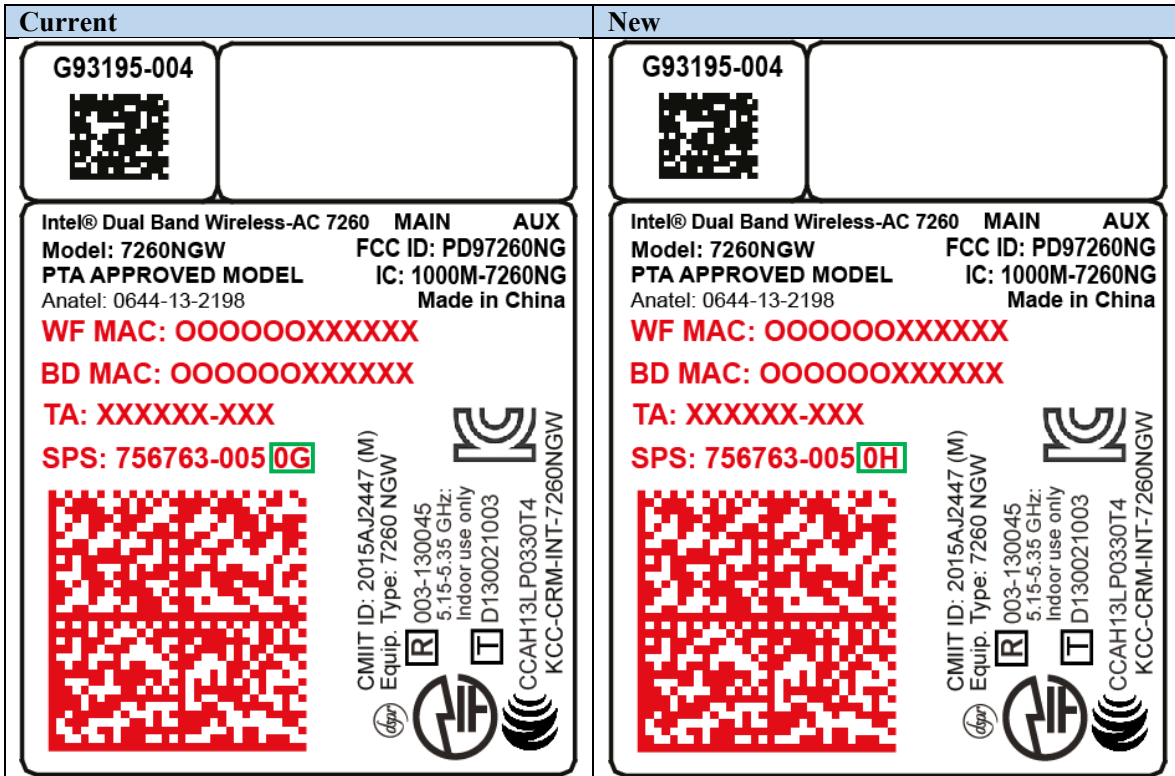

The Artwork for outer packaging has not been finalized by the EU at this time. As a result, Intel may need to initiate these out packaging additions in 2 phases.

- Phase 1: separate labels will be created and added to the side of the outer box.
- Phase 2: Intel will incorporate into the existing out box labels.

3. Updating revision number on internal tracking #:

SKU	Current	New
7260.NG.WG.NV	0G	0H

Customer Impact of Change and Recommended Action:

The label change does not affect the functionality of the product. Customers should be aware of the changes and take any necessary steps to insure no impact for their receiving and processing of the product in their manufacturing.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.
