Description of Change to the Customer:

Updates made to audio header circuitry to improve audio quality.

Customer Impact of Change and Recommended Action:

This update has been thoroughly evaluated to ensure there is no quality, reliability, regulatory compliance certifications or functional implication to our customers for the Intel NUC board BLKDE3815TYBE and Intel NUC kit BLKDE3815TYKHE.

Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.
