## 106692 - 01

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

# Product Change Notification

**Change Notification #:** 106692 - 01  
**Change Title:** Intel® Monahans Processor Family Development Kit and Associated Processor Cards, PCN 106692-01, Product Design, A1 to B1 Silicon Stepping Change, Order Code, Reason for Revision: Clarify Date of Qualification Data Availability  
**Date of Publication:** August 31, 2006

## Key Characteristics of the Change:

Product Design

## Forecasted Key Milestones:

<b>Date of Qualification Data Availability:</b>	Sep 29, 2006
<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Aug 18, 2006
<b>Date of First Availability of Post-Conversion Material:</b>	Aug 18, 2006

*The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.*

## Description of Change to the Customer:

**Reason for Revision: Clarify Date of Qualification Data Availability:** The date listed above has been updated to reflect when the qualification data will be available for the Monahans B1 silicon. There is no qual data provided for development kits.

A new revision of the Intel® Monahans Processor Family Development Kit (DVK, code named "Zylonite"), its associated Processor Card and Blackstone II Cable are now available. That new revision of the DVK & Processor Card supports the Monahans B1 stepping and addresses sightings found in the Monahans A1 silicon. The new revision of the Blackstone II Cable is Pb-Free. Please contact your local Intel Representative for additional information.

## Customer Impact of Change and Recommended Action:

Customers needing Monahans DVK's, Processor Cards and Blackstone II Cables are encouraged to purchase the Pb-Free post-conversion products containing the Monahans B1 silicon.

Previous Monahans A1 versions and non Pb-Free Blackstone II cables are no longer available to future orders.

## Products Affected / Intel Ordering Codes:

### System Products Table

Pre-Conversion MM #	Pre-Conversion Product Code	Post-Conversion MM#	Post -Conversion Product Code
875286	DBZyloniteA1	883408	DBPXA320B1
876734	DCNZYLONITEA1	883409	PCPXA320B1
