# Product Change Notification

**Change Notification #:** 104095 - 00  
**Change Title:** Optical Networking-Components, Change of LXT16726/727 order codes (MM numbers), PCN 104095-00, FYI  
**Date of Publication:** May 13, 2004

**Type of Change Notification:**  
FYI - (For Your Information)

**Key Characteristics of the Change:**  
Order Code

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Jun 14, 2004
<b>Date of First Availability of Post-Conversion Material:</b>	Jun 14, 2004

*The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.*

## Description of Change to the Customer:

Due to a change in our internal manufacturing planning system, Intel will be required to change the order code number of the products listed below. The listed post-change product codes represent only a change to the affected MM#s. All other functionality (both pin out and performance) of the affected product codes and their post-change replacements are identical. Customers must be ready to receive products with the post-conversion product code labeling and place orders using the post-change MM# by the date shown in the forecasted key milestones. All current orders on backlog with pre-conversion MM#s will be transferred to the post-conversion MM# on June 14, 2004.

## Customer Impact of Change and Recommended Action:

Customers must be place orders using the post-change MM# by the date shown in the forecasted key milestones.
