Change Notification #: 112944 - 00
Change Title: Intel® SSD 730 Series (240GB, 480GB 2.5in SATA 6Gb/s, 20nm, MLC) 7mm, Generic 10 Pack
PCN 112944-00, Product Design
Firmware Update
Date of Publication: March 14, 2014

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Apr 07, 2014
---	--------------

Description of Change to the Customer:

Intel is upgrading the firmware versions on the Intel® SSD 730 Series products from L2010410 to L2010420 to enhance the universal asynchronous receiver/transmitter communication to the drive for unlocking.

Customer Impact of Change and Recommended Action:

Since the firmware update has incremental improvement over the previous version, Intel anticipates no product impact with this firmware, and re-qualification is not recommended.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
