

Product Change Notification

106410 - 00

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 106410 - 00
Change Title: Marking Change for 56 Lead TSOP Intel Strataflash® Embedded Memory P30 Products, PCN 106410-00, Product Marking
Date of Publication: June 09, 2006

Key Characteristics of the Change:

Product Marking

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jul 12, 2006
---	--------------

Description of Change to the Customer:

Intel is changing the topside mark on 56 Lead TSOP Intel Strataflash® Embedded Memory P30 products from Ink Mark to Laser Mark. Additionally, the Intel and Flash logo will be replaced with an outlined I. Topside mark text will not change. Please see example of current and new topside mark below:

Current Part Marking

New Part Marking

Intel will begin marking the 56 lead TSOP Intel Strataflash® Embedded Memory P30 product with laser mark based on the dates posted in this PCN. There will be a transition period where both ink and laser marked part will ship simultaneously. Both product makings are valid and customers should continue to accept either.

Part numbers and Material Master numbers (MM#) for existing products will not change. Customers do not have to change any ordering information. All existing material master numbers affected by this change are listed in this PCN.

Customer Impact of Change and Recommended Action:

The topside mark change will be visible to the customer as mark technology will be changed from ink to laser mark, and logo marking will change from the Intel and Flash logo to an outlined I.

Intel does not anticipate any performance, quality, reliability, interchangeability, functionality, or customer handling and manufacturability differences as a result of this mark change.
