# Product Change Notification

**Change Notification #:** PCN112994-03  
**Change Title:** Intel® PicoArray, PicoXcell, & Transcede Products  
PCN 112994-03, Product Marking, Label  
**Reason for Revision:**  
Correcting Product Code  
**Date of Publication:** June 18, 2014

**Key Characteristics of the Change:**  
Product Marking

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	July 7, 2014
---	--------------

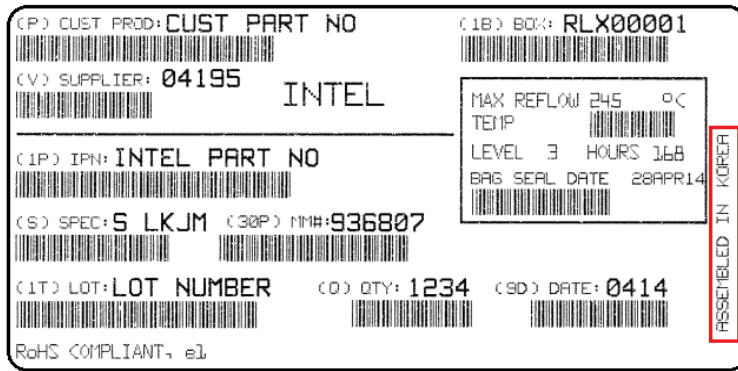

## Description of Change to the Customer:

**Reason for Revision:** Correcting Product Code.

In line with the acquisition of the Wireless Division of Mindspeed Technologies, Inc., February 2014, Intel is transferring the products listed in the products affected table from the existing Mindspeed supply chain to an Intel managed supply chain. This consolidation will enable Intel to provide better support to customers in the dynamic market environment.

Products will be assembled in Taiwan or Korea. Label/shipping documents will show the country of origin as Taiwan or Korea as shown in the images below.

These labels are provided as a representation for example purposes only. Actual label will reflect correct product data.

In addition customers will see a change to part marking to the products listed in the “Products Affected/Intel Ordering Codes” table below. The mark examples below reflect the change going from Mindspeed to Intel marking. No other changes will be made to the product.

Mindspeed Material Number	Current Marking	New Marking
PC202-PBC, PC202-PBC-10, PC203-PBN, PC203-PBN-10, PC205-PBN, PC205-PBN-10		
PC302-HSC, PC312-HSC, PC323-XPC, PC333-XPC		

Mindspeed Material Number	Current Marking	New Marking
PC3008-QXC		
M84213G-13, M84215G-13, M84310G-13, M84313G-13, M84315G-13		

These mark images are provided as a representation for example purposes only. Actual mark will reflect correct product data.

**Customer Impact of Change and Recommended Action:**

This is a visual marking change that should be fully understood as to how it must be accommodated and implemented within the customers incoming and process handling to minimize any unnecessary hold up in their product flow.

All impacted products with the new marking have identical quality and reliability as the current products. Customers may receive shipments with either/both part markings until the current inventory is depleted. Marking will not be mixed within an intermediate box.

Please contact your local Intel Field Sales Representative if you have any further questions about this change.
