## Description of Change to the Customer:

### Reason for Revision: Product life extended

The Intel® NAND Products Group will be discontinuing sales of the Intel® SD74 NAND Flash Memory, and all derivative products therein. The product identified in this notification will be discontinued and unavailable for additional orders after the "last product discontinuance order date" shown above.

## Customer Impact of Change and Recommended Action:

Please review the list of product order codes impacted, determine your remaining demand for these products, and submit your demand requests by the date indicated for your product. Please note: The affected products will remain on the Intel Corporate Commit Process (CCP). From the date of PCN publication, interim booking and turn back deadlines apply per standard CCP process.

While there is no "drop in compatible" replacement for these products, the 50nm Intel SD54 and SD58 NAND Flash Memory product lines do cover the same architecture and density range, and are suitable and recommended for product replacement. The Intel® NAND Products Group can recommend and assist in the replacement of these products for your application. Please contact your Intel sales representative for guidance or questions / concerns.
