Product Change Notification

Change Notification #: 103660 - 00
Change Title: Anti-Static Cover Tape and Protective Band Conversion for Tape and Reel Products, PCN 103660-00, FYI
Date of Publication: October 30, 2003

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Transport Media

Forecasted Key Milestones:

| | |
|---|--------------|
| Date Customer Must be Ready to Receive Post-Conversion Material: | Dec 01, 2003 |
|---|--------------|

Description of Change to the Customer:

As part of our ongoing process improvement, Intel has qualified a new Heat Activated Type Anti-static Cover Tape and 0.5mm Protective Band for several tape and reel products. The new tape meets all the requirements of EIA standards and the New AB anti-static cover tape's properties are within Intel and industry spec limits. The change will be visible to customers; however it will not impact the product's performance, fit or function. Customers may notice the difference due to clearer transparency of the AB anti-static cover tape as compared to the current AA anti-static cover tape and the thickness of the new protective band is 0.5mm vs. the current 1mm. The type AB anti-static cover tape uses the same material as the current type AA anti-static cover tape. The same vendor will be used to supply both types of tape. Please see pictures below. Customers may receive both versions of the cover tape and protective band until our inventory is depleted.

AA antistatic cover tape

AB antistatic cover tape

Finished goods with Reel & Protective Band

Customer Impact of Change and Recommended Action:

Intel does not anticipate any customer impact due to this change. It is recommended that the customer notify their receiving department of this change.

Products Affected / Intel Ordering Codes:
