# Product Change Notification

**Change Notification #:** 110974 - 00  
**Change Title:** Tray Box and Label Modifications, PCN 110974-00, Transport Media, Label,  
**Date of Publication:** September 27, 2011

## Key Characteristics of the Change:

Transport Media, Label

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Oct 28, 2011
---	--------------

## Description of Change to the Customer:

Intel is making the following changes to the tray box **without changing the box dimensions or number of trays in a box:**

The location of the graphics on the tray box will change.

The ink color on the tray box will change from blue to black.

The moisture sensitive symbol will be preprinted on the tray box used for both desiccant and non-desiccant packed products.

In order to ensure that the customer knows when the material inside the box does not require a moisture barrier bag (MBB) even though the moisture sensitive symbol appears on the box, the label will show the moisture sensitivity level (MSL) as "1" with Unlimited Hours out of bag.

Example of the new label:
