Product Change Notification

Change Notification #: 109417 - 00
Change Title: Change of Moisture Sensitivity Label (MSL) Value, PCN 109417-00, Label, Correction Made to Match PRQ Report
Date of Publication: June 10, 2009

Key Characteristics of the Change:

Label

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jun 10, 2009
Date of First Availability of Post-Conversion Material:	Jun 10, 2009

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

The Intel® IXP2400 Network Processor product line as noted in the affected products table within this notification has gone through a label change on the Moisture Sensitivity Label (MSL).

Previously the product was shipped with a Moisture Sensitivity Level of "4". However, the Moisture Sensitive Level had been incorrectly marked. It should have been marked as a "3".

Customer Impact of Change and Recommended Action:

This change will have no affect on the customers who have previously taken the products, or who will take these products in the future.

The value of "3" allows for 168 hours of open floor life, in comparison to "4" which only allows for 72 hours of open floor life. Open floor life is the amount of time the silicon static bag can be left open before the moisture reaches a level that would require re-baking and re-sealing.

Shipments already created with the Label may display the value of "4" until new shipments/labels begin reflecting the value of "3". However, all PRQ (Production Release Qualification) reports do show the correct value of 3.

Products Affected / Intel Ordering Codes:

Marketing Name	Stepping	Pre Conversion Product Code	Pre Conversion MM#
Intel® IXP2400 Network Processor	B-0	NPIXP2400BB	865905
Intel® IXP2400 Network Processor	B-0	RPIXP2400BB	850735
Intel® IXP2400 Network Processor	B-0	RPIXP2400BAT	850811
Intel® IXP2400 Network Processor	B-0	RPIXP2400BBT	850812
Intel® IXP2400 Network Processor	B-0	NPIXP2400BA	865906
Intel® IXP2400 Network Processor	B-0	NPIXP2400BAT	865907
Intel® IXP2400 Network Processor	B-0	NPIXP2400BBT	865908
Intel® IXP2400 Network Processor	B-0	RPIXP2400BA	850813
