## Description of Change to the Customer:

Intel is supporting the Managed Life Communication servers by moving towards integration of the CPUs for both the TIGI2U and NSI2U products. As such, CPU-integrated SKUs have been created, which customers may now order:

CPU-Integrated SKU	Power	CPU	Availability	MM#
TLIA2201	1 x AC	2 @ 3.2GHz	Now	883851
TLID2201	1 x DC	2 @ 3.2 GHz	Now	883815
NSIA2100	1 x AC	2 @ 3.6 GHz	Now	883852

To minimize the number of SKUs, making product delivery more predictable for our customers, Intel is announcing today the discontinuance of the SKUs which do not ship with integrated CPUs. Customers are encouraged to migrate to use of the CPU-integrated SKUs. The SKUs which are being discontinued are:

Discontinued Product SKU	MM#
TLIA0201	884792
TLID0201	884854
NSIA0100	877806

The "Forecasted Key Milestones" table above shows the timeline for final orders, final deliveries, and last ship dates. Orders that are on the books as of Dec 31, 2006 will become non-cancelable and non-returnable.

The migration path for customer using the affected SKUs is to migrate to use of the CPU-integrated SKUs listed, which are priced separately, and are available via the same channel as the discontinued SKUs. Product life cycles for the TIGI2U and NSI2U are not affected by this SKU migration.
