## Description of Change to the Customer:

The Intel® Ethernet Server Adapter X520-DA1 and X520-DA2 series, Product Codes: X520DA1OCP, MM# 924882, X520DA1OCPG2P20, MM# 934017, X520DA2OCP, MM# 930213, X520DA2OCPG2P20, MM# 934018 will undergo the following update:

### Australia Regulatory Mark Change

- The Australian Communications and Media Authority's (ACMA) labeling arrangements to reflect regulatory compliance changed on 1 March 2013, to be phased in over a three-year transition period. Products shipping March 1, 2016 need to be labeled with the "RCM" mark.
- Per ACMA requirements, Intel will be changing the C-Tick regulatory mark on all products to the "RCM" mark.
- Mark will be updated in two ways, depending on how the current C-Tick mark is already on products:
  - If C-Tick mark is currently on PCB silkscreen, Intel will apply a label with RCM mark to cover current mark.
  - If C-Tick mark is currently printed on a label, Intel will replace the mark so labels will be printed with new mark.

- See for picture of "C-Tick" versus "RCM" mark

**Customer Impact of Change and Recommended Action:**

Customers can expect to receive mixed inventory until current inventory levels are depleted. Intel anticipates no functional impact to customer but encourages customer to understand the changes. Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
