Customer Impact of Change and Recommended Action:

There is no change to the form, fit, or function of the product. The change is only to the labels used in packaging. Customers should be aware of the changes to the label and take appropriate actions to accommodate the changes and avoid impact to their process.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
