Product Change Notification

Change Notification #: 105481 - 00
Change Title: Intel® IXC1100 Control Plane Processor,
PCN 105481-00, FYI, Line Item
Consolidation
Date of Publication: September 15, 2005

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Order Code

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Oct 17, 2005
Date of First Availability of Post-Conversion Material:	Sep 15, 2005

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

Due to consistent low demand for the IXC1100 Control Plane Processor, Intel will be implementing a line item consolidation. The recommended replacement, the IXP420 product family, is pin and performance compatible. Intel will no longer offer the product on the affected product list per the Key Milestones listed above. Customers will need to order the replacement part as listed.

Customer Impact of Change and Recommended Action:

Customer should begin placing new orders using the recommended replacement order code.
