

Product Change Notification

110600 - 03

Information in this document is provided in connection with Intel® products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 110600 - 03
Change Title: Intel® Desktop Board DQ67SW, Boxed and Bulk
PCN 110600-03, Product Material, Label Change to Capacitor to Improve Power Margins and New KC Certification Labeling
Reason for Revision: Removing Change to USB Controller and Adding New KC Certification Labeling
Date of Publication: June 08, 2011

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

| | |
|---|--------------|
| Date Customer Must be Ready to Receive Post-Conversion Material: | Jun 13, 2011 |
|---|--------------|

Description of Change to the Customer:

Reason for Revision: Removing change to USB controller and adding new KC certification labeling.

Intel has implemented the following changes:

1. Change capacitor C634 from 10uF to 47uF to improve power margin.
2. New KC certification labeling on box and carton.

New KC Logo

KCC-REM-CPU-DXXXXXXXX

Where DXXXXXXXX = Product Name

Removing from change:

1. Change USB3.0 controller to a new version due to global limitations with the current silicon supply. This change will be implemented at a later date.

Customer Impact of Change and Recommended Action:

This change has been thoroughly evaluated to ensure that there are no quality, reliability or functional implications to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Products Affected / Intel Ordering Codes:

| Product Code | MM# | Pre Change AA | Post Change AA |
|--------------|--------|---------------|----------------|
| BOXDQ67SWB3 | 915094 | G12527-307 | G12527-308 |
| BLKDQ67SWB3 | 915095 | G12527-307 | G12527-308 |

PCN Revision History:

| Date of Revision: | Revision Number: | Reason: |
|-------------------|------------------|--|
| April 29, 2011 | 00 | Originally Published PCN |
| May 16, 2011 | 01 | Added Hardware Support for Future Processors and Updated Availability Date |
| May 27, 2011 | 02 | Hardware Support for Future Processors Will Not Be Added at this Time |
| June 8, 2011 | 03 | Removing Change to USB Controller and Adding New KC Certification Labeling |
