Product Change Notification

Change Notification #: 104664 - 00
Change Title: SR2400 Electrical Spares Kit, FYI, Class 2:
CDROM Interposer Assembly Change
Date of Publication: December 17, 2004

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jan 03, 2005
---	--------------

Description of Change to the Customer:

A design change was made to the spacer used between with CDROM drive and CDROM interposer card. The Interposer assembly numbers are changing from:

C74971-202 TO C74971-203. Interposer Assembly used with backplane configurations

C74968-301 TO C74968-302. Interposer Assembly used in fixed drive configurations

This design change was made to address an issue with the CDROM tray "Sticking" when ejected. With this design change, both screws can now be used to attach the interposer assembly to the CDROM drive. See Technical Advisory #0739 for issue details.

Customer Impact of Change and Recommended Action:

Intel anticipates little to no impact to customers. Evaluate when available.
