

# Product Change Notification

## 110588 - 00

Information in this document is provided in connection with Intel® products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

# Product Change Notification

**Change Notification #:** 110588 - 00  
**Change Title:** Boxed Intel® Desktop Board DQ67SW  
PCN 110588-00, Product Design, Label  
BIOS Update and Replace KC Registration  
Label with Silkscreen Version  
**Date of Publication:** April 18, 2011

## Key Characteristics of the Change:

Product Design

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	May 03, 2011
---	--------------

## Description of Change to the Customer:

1. BIOS update from SWQ6710H.86A.0041 to SWQ6710H.86A.0049. To access the release notes or get a copy of the BIOS for evaluation, go to <http://downloadcenter.intel.com>.
2. The KC Registration label is being replaced by a silkscreen version on the PCB.

## Customer Impact of Change and Recommended Action:

It is recommended that customers perform a thorough evaluation of the BIOS change to ensure a smooth transition. New board revisions cannot be downgraded to an older BIOS version. All changes have been thoroughly evaluated to ensure that there are no quality or reliability implications to our customers. Intel validation of a new board revision does not include testing with older versions of BIOS. These changes are not expected to cause a change to the Microsoft Windows\* operating system's software driver stack.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

## Products Affected / Intel Ordering Codes:

Product Code	MM#	Pre Change AA	Post Change AA
BOXDQ67SWB3	915094	G12527-306	G12527-307
BLKDQ67SWB3	915095	G12527-306	G12527-307
