

Product Change Notification

110112 - 00

Information in this document is provided in connection with Intel products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #:	110112 - 00
Change Title:	Intel PRO/1000 PF Quad Port Server Adapters, EXPI9404PF MM#882803, EXPI9404PFBLK MM#882888, EXPI9404PFG1P20, MM#882885 (Bolton Retail/OEM generic) PCN 110112-00 Label Add European Union WEEE (Waste Electrical and Electronic Equipment Directive) Regulatory Label and Add Authentication Label
Date of Publication:	June 25, 2010

Key Characteristics of the Change:

Label

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Aug 13, 2010
---	--------------

Description of Change to the Customer:

The Intel PRO/1000 PF Quad Port Server Adapters, EXPI9404PF MM#882803, EXPI9404PFBLK MM#882888, EXPI9404PFG1P20, MM#882885 (Bolton Retail/OEM generic) will undergo the following changes:

Add EU WEEE Label:

Intel manufactures a wide range of products, from microprocessors, through embedded controllers, to systems, and is committed to complying with applicable legal requirements. We continually monitor changes in those requirements.

It is important to note that the EU WEEE Directive requires "producers" of certain electrical and electronic equipment to develop recycling programs to allow the end user to return WEEE for recycling. The definition of "producer" is broad and can potentially include various entities in a products life cycle (e.g. manufacturer, distributor, reseller). Each EU Member State has implemented national legislation detailing specific requirements for WEEE implementation in that Member State. Some other non-EU countries have laws similar to the WEEE Directive; however, the scope and producer responsibility requirements vary from those of the WEEE Directive.

Most of Intel's semiconductor components are generally not considered within the scope of the WEEE Directive; however, the scope of the Directive can vary between Member States. In order to address potential scope and registration issues in a minority of Member States, certain components may be labeled with the wheelie bin symbol. Intel considers its chassis-level server products to be within the scope of the WEEE Directive, although the final assembly and/or configuration of these systems are commonly completed by commercial customers.

If you have any questions concerning this WEEE directive, please send an email to wEEE@intel.com.

The WEEE label will be placed on either the back or the front of the printed board (PB) depending on how much free space is available on the front or the back of the PB, see sample label picture below.

Add Authentication Label:

To ensure that the Intel product you purchase meets the stringent quality and reliability standards that you have come to expect, Intel is implementing an authentication label for our Ethernet Adapter products. This label will provide you with on-demand validation and manufacturing information about your product. When you receive product with this new authentication label, you will be able to verify that you have a genuine Intel product by going to <http://verify.yottamark.com/>.

This authentication label will be placed on the secondary side of the printed board, see sample authentication label picture below. (example only)

YottaMark web site:

The Top Assembly (TA) and Printed Boards Assembly (PBA) numbers will also roll, as noted in the affected products table within this PCN notification. If the PBA/TA numbers are printed on any product or box labels, those will show the PBA/TA dash roll as well.

Customer Impact of Change and Recommended Action:

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

These new labels do not affect the Form, Fit or Function of the affected product(s).

The authentication label is only to help our customers ensure they have received a genuine Intel product.

Products Affected / Intel Ordering Codes:

Product Name	Product Code	MM#	Old TA#	New TA#	Old PBA#	New PBA#
Intel PRO/1000 PF Quad Port Server Adapter (Bolton Retail single)	EXPI9404PF	882803	D75314-002	D75314-003	D75307-002	D75307-003
Intel PRO/1000 PF Quad Port Server Adapter (Bolton Retail Blk 5-pak)	EXPI9404PFBLK	882888	D75348-002	D75348-003	D75307-002	D75307-003
Intel PRO/1000 PF Quad Port Server Adapter (Bolton OEM generic 20-pak)	EXPI9404PFG1P20	882885	D75350-004	D75350-005	D56184-006	D56184-007
