# Product Change Notification

**Change Notification #:** 107287 - 01  
**Change Title:** Intel® Carrier Grade Server TIGPR2U, PCN 107287-01, Product Marking, 30-Year EFUP labels added to power supply spares to comply with China RoHS, Reason for Revision: Update ECO number and TA numbers  
**Date of Publication:** April 24, 2007

## Key Characteristics of the Change:

Product Marking

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Mar 01, 2007
---	--------------

## Description of Change to the Customer:

### Reason for Revision: Update ECO number and TA numbers

A 30-Year Environmental Friendly Use Period (EFUP) label will be added to spare power supply units of the Intel® Carrier Grade Server TIGPR2U to comply with the Reduction of Hazardous Substances (RoHS): China Initiative. This is in addition to the recent China RoHS changes in PCN #106560 and the already completed European Union (EU) RoHS. Only additional power supply units which are purchased as spares are affected and not those that come with the servers.

China RoHS requires that systems built on or after March 1, 2007 have these changes/additional labeling. Customers must be ready to accept product with these changes by March 1, 2007. It is important to note that systems built prior to March 1, 2007 and in stock either within distribution or Intel, and shipped to customers after March 1, 2007 do not require these changes/additional labeling for shipment to China.

The logo itself will be "black and white" and represents the fact that the product contains certain toxic or hazardous materials. At the center of the logo will be a number, representing the Environmental Friendly Use Period (EFUP). This number is specific to the number of years the product can remain in service prior to being recycled.

The logo is a circle formed by two arrows that identify the product as recyclable. Below is a sample of the label:

**Customer Impact of Change and Recommended Action:**

The impact to customers will be determined on if product is being shipped into China. Customers need to be aware of this change and apply the label as their business needs require.

**Products Affected / Intel Ordering Codes:**

Pre Change Product Code	Pre Change MM#	Pre Change TA	Post Change TA
TLPACPSU002	880162	D48221-001	D48221-002
TLPDCPSU002	880169	D48240-001	D48240-002
