

# Product Change Notification

**Change Notification #:** 119748-00

**Change Title:** Intel® Server 1600W AC Common Redundant Power Supply AXX1600TCRPS, PCN 119748-00, Label, Power Supply Label Update

**Date of Publication:** November 28, 2023

## Key Characteristics of the Change:

Label

### Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:*</b>	December 14, 2023
--	-------------------

\* Intel appreciates the customer's desire to receive the latest revision of products. However, Intel manages inventory on a first in first out (FIFO) basis at the MM# level. Subsequently, customer requests for a specific revision of material (below the MM#) will not be supported by Intel.

## Description of Change to the Customer:

Intel is implementing the following changes on the item listed in the "Products Affected" table.

- Adding the UKCA certificate logo on the Power Supply Label
- The PSU revision will change from 02A to 03A

### Power Supply Label

Before	After
 <p>The label shows technical specifications for a switching power supply. A red box highlights the '02A' revision code in the bottom right corner. The label includes safety warnings, P/N: J78186-008, S/N: CNS1625A4BM83117, and various certification logos (UL, CE, etc.).</p>	 <p>The label is identical to the 'Before' version but includes a UKCA certification logo in the top right corner. A red box highlights the '03A' revision code in the bottom right corner. The P/N is now J78186-009 and the S/N is CNS1625A4BP9J0031.</p>

### Customer Impact of Change and Recommended Action:

Intel® does not expect any impact to customers from these changes but encourages customers to understand the change and determine the impact on their applications. For that reason, Intel recommends that the customer perform a standard level of evaluation.

### Products Affected/Intel Ordering Codes:

Marketing Name	Product Code	MM#	Pre Change TA	Post Change TA
1600W AC Common Redundant Power Supply AXX1600CRPS	AXX1600TCRPS	99ADF2	K42116-003	K42116-004

### Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at [www.intc.com](http://www.intc.com).

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
