Description of Change to the Customer:

The Intel® Wi-Fi 6E AX210 2230 SKUs listed in the products affected table below will undergo the following changes:

1. To improve manufacturing flexibility, an existing manufacturing site in Vietnam is being added.
 - a. No impact expected to supply availability.
 - b. Form, fit, function will be identical to existing modules with no MM# or regulatory changes.
 - c. Updated manufacturing location printed on the labels.
2. Japan Regulatory Certification by including 6GHz (Low Power Indoor band) on the Disti label for the affected product except AX210.NGWGE.NVK and AX210.NGWGI.NVK.
3. Product TA# dash up.

Customer Impact of Change and Recommended Action:

The manufacturing site and label changes to the products do not affect functionality.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.
