

Product Change Notification

Change Notification #: 818989-00

Change Title: Select Intel® Wireless-AC 9260, 2230, 2x2 AC+BT, Gigabit, No vPro®, Industrial, Extended temp SKUs, PCN 818931-00, Manufacturing Site, Label, Addition of Manufacturing Site and Label Updates

Date of Publication: April 2, 2024

Key Characteristics of the Change:

Manufacturing Site, Label

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	April 27, 2024
---	----------------

Description of Change to the Customer:

The Intel® Wireless-AC9260 2230 SKUs listed in the products affected table below will undergo the following changes:

1. To improve manufacturing flexibility, an existing manufacturing site in Vietnam is being added.
 - a. No impact expected to supply availability.
 - b. Form, fit, function will be identical to existing modules with no MM# or regulatory changes.
 - c. Updated manufacturing location printed on the labels.
2. Product TA# dash up.

Customer Impact of Change and Recommended Action:

The manufacturing site and label changes to the products do not affect functionality.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
