

Product Change Notification

Change Notification #: 849497-00

Change Title: Select Boxed Intel® Core™ Ultra 9 processor 285K

Change Detail: Retail Box Packaging Update

Date of Publication: January 26, 2026

Key Characteristics of the Change:

Transport Media, Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material	March 02, 2026
------------------------------------------------------------------------	----------------

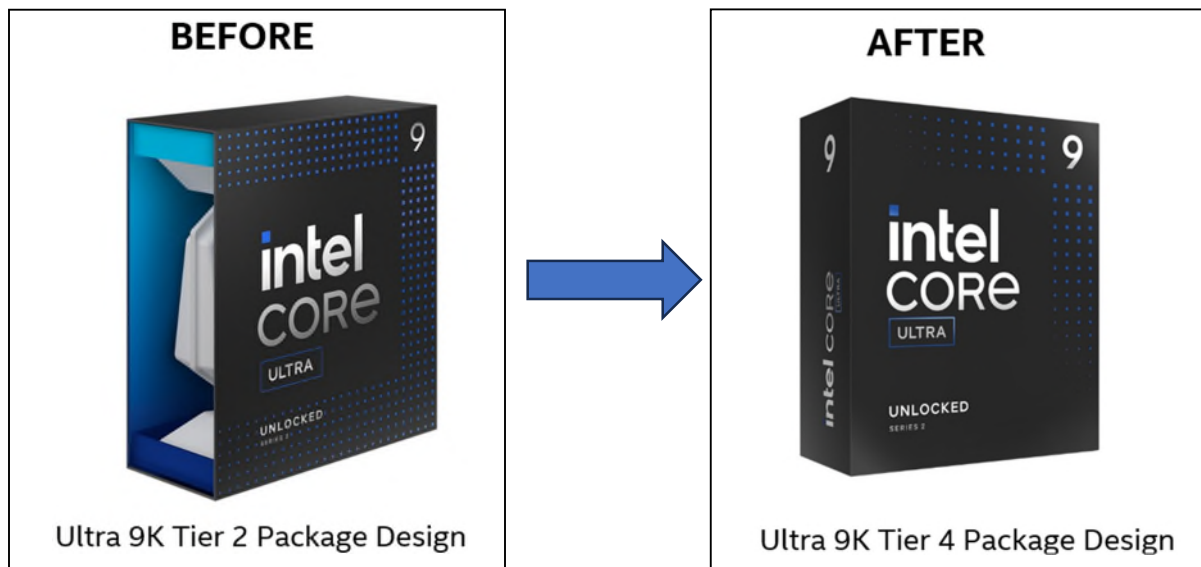

Description of Change to the Customer:

Intel Corporation is updating the Retail Packaging Kit for select Boxed Intel® Core™ Ultra 9 processor 285K models. This change will result in a visual modification to the physical packaging and a reduction in carton dimensions, enhancing pallet density.

Carton Dimensions: The dimensions will change from 165mm x 150mm x 64mm to 116mm x 44mm x 101mm.

- This modification will result in a visual difference in the physical packaging.
- The change will increase the pallet density of the product.
- There will be a reduction in the volumetric storage requirements for the product.
- The number of consumer units per pallet will increase to align with the existing CPU only shipping configuration. (*Note: Actual pallet quantities may vary by site.)

Product Identification: There will be no changes to the Material Master Number (MM#) or the box ordering code for the product.

Customer Impact of Change and Recommended Action:

This change will result in visual differences to the exterior of the retail carton; however, there are no changes to the form, fit, or function of the product inside.

Packaging Impact: The new packaging will reduce the volumetric storage requirements for the product.

Inventory Transition: Customers may observe a mix of pre- and post-conversion products until existing inventory is depleted. Post-conversion material may be received before the target date if current inventory is exhausted sooner.

For further inquiries regarding this change notification, please contact your local Intel Field Sales representative.

Products Affected/Intel Ordering Codes:

Marketing Name	MM#	Product Code	Spec Code
Boxed Intel® Core™ Ultra 9 processor 285K	99CN33	BXC80768285K	S RQD5
Boxed Intel® Core™ Ultra 9 processor 285K	99CN34	BX80768285K	S RQD5

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
