

Product Change Notification

Change Notification #: 859226-00

Change Title: Intel® Ethernet Network Adapters

Change Detail: Update UK Single place of contact address, Adding QR code on Disti/OBL Label for China RoHS and Removal of China ROHS physical flyer

Date of Publication: July 03, 2025

Key Characteristics of the Change:

Label

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material	July 18, 2025
--	---------------

Description of Change to the Customer:

The Intel® SKUs listed in the products affected table below will be updated with the following change(s):

1. Intel is relocating its UKCA Single Place of Contact (SPOC) address by the end of September 2025. As a result, all product labels must reflect the new address starting October 1, 2025. This update applies to all products listed in the Products Affected/Intel Ordering Codes table. The new address is provided below.

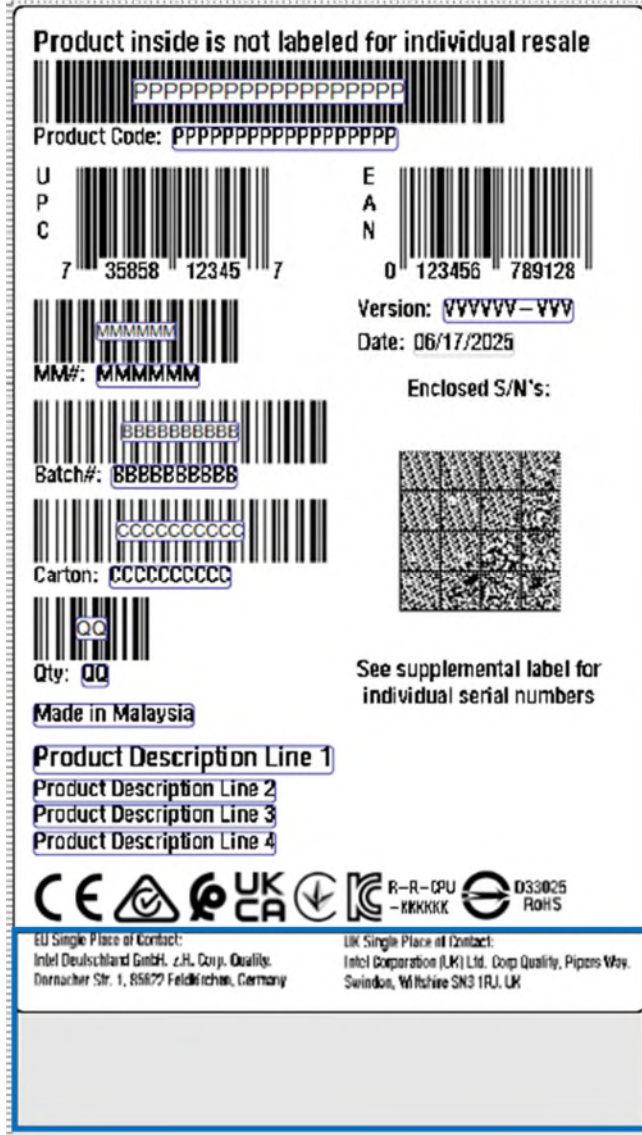

UK Single Place of Contact:

Intel Corporation (UK) Ltd., Attn: Corp. Quality, 2 New Bailey,
6 Stanley Street, Salford, Greater Manchester, M3 5GS, United Kingdom

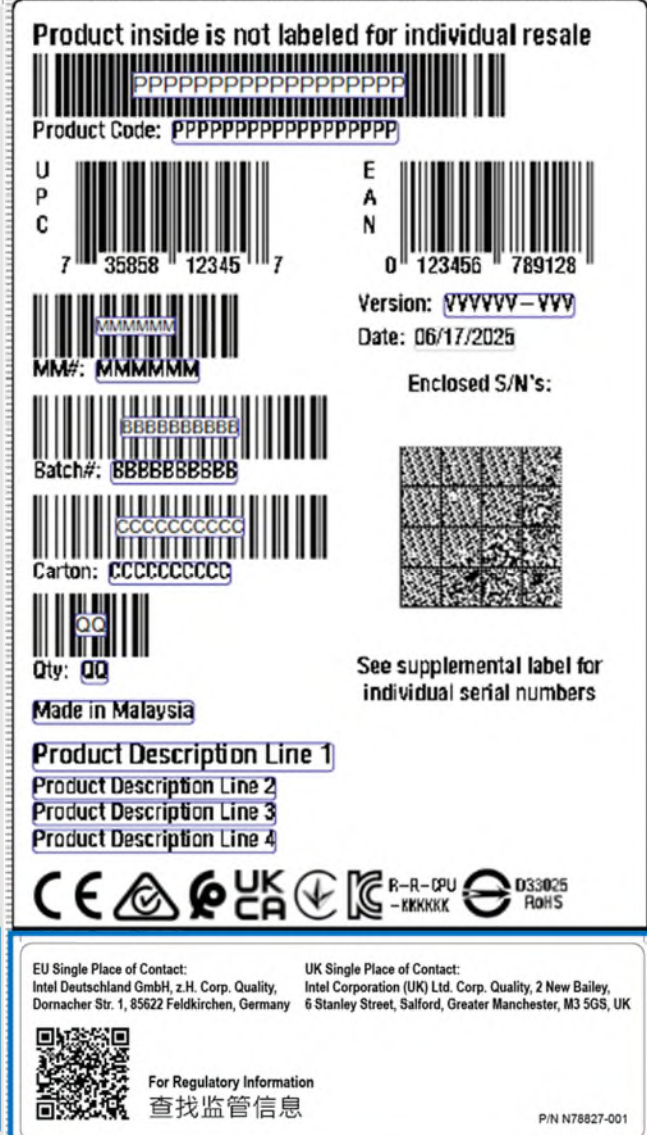

2. Due to recent amendments made to GB/T 26572-2011 (better known as China RoHS), Intel will replace the China RoHS flyer in Ethernet Network Adapter shipments with a QR code on the outer box label, linking to the product's regulatory site. This change supports compliance with China's updated RoHS regulation, effective January 2026, which adds four phthalates to the list of restricted substances, aligning it with EU RoHS. Customers can access the updated substance list and disclosure table via the QR code. Image of the current/new label with the QR code are shown below.

- To meet the October 1, 2025 deadline for updating the UKCA SPOC address, Intel will apply an additional label with the new address and a QR code over the existing EU and UKCA SPOC addresses on older inventory where needed. This ensures all shipped products reflect the updated information.

Current Label

Current Label with Cover-Up Label

(Picture is for example only, to demonstrate the placement and content of the cover-up label that will be placed on the current Bulk Pack labels; the actual placement is subject to change per different label template)

Customer Impact of Change and Recommended Action:

Intel anticipates no impact to customers.

Customers should expect to receive mixed inventory of old labels and new labels until 10/1/2025. Sales orders that ship out after 10/1/2025 will have new labels or will be relabeled as needed.

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
