

Product Change Notification

Change Notification #: 860377-00

Change Title: Intel® Data Center Blocks for Cloud

Change Detail: Product End of Life

Date of Publication: July 10, 2025

Key Characteristics of the Change:

Product Discontinuance

Forecasted Key Milestones:

Product Discontinuance Program Support Begins	July 10, 2025
Last Product Discontinuance Order Date	July 10, 2025
Orders are Non-Cancelable and Non-Returnable After	July 10, 2025
Last Product Discontinuance Shipment Date	July 10, 2025

Description of Change to the Customer:

The Intel® Server Boards, Spares and Accessories listed in the "Products Affected/Intel Ordering Codes" table below were discontinued already along with those products listed in [PCN119551-03](#).

Intel enabled MiTAC to manufacture and sell the discontinued DSG products. MiTAC is an edge-to-cloud IT solutions provider; has been a longstanding partner of DSG, and is the current DSG ODM, manufacturer, test, and integration partner for these systems.

Engineering and Support Guidance for Discontinued Products:

1. Two Sustaining Cycle Releases¹ per year is planned during the Extended Life Period². Beginning 2026, this will reduce to One Sustaining Cycle Release per year.
2. No new features or enhancements should be expected, however ECOs may be required during the extended life period to maintain supply lines (e.g., to qualify new vendor due to a component EOL).
3. Intel will provide reasonable commercial efforts in debugging issues during the warranty period for the product after the PDA date has passed. Fixes cannot be committed, but Intel will endeavor to provide reasonable workarounds for the product.

¹ Sustaining Cycle Release includes new OS, peripheral, and adapter validation, bug fixes, IPU integration, and Critical PSIRTs integration are committed; High and lower PSIRTs at Intel's discretion

² Extended Life Period is defined as the period beginning with the Product Discontinuance Announcement publication date ("the PDA date") and continuing through the end of product warranty

Customer Impact of Change and Recommended Action:

Intel and MiTAC are working together to ensure a smooth transition and to support you throughout this process. Because of this no formal Last Product Discontinuance Order Date or Last Product Discontinuance Shipment Date can be provided.

For information concerning these products, please contact: DSGserverinfo@mitac.com or contact your Intel Authorized Distributor.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
