## Description of Change to the Customer:

The Intel® Wi-Fi 7 BE213 2230 SKU listed in the products affected table below will undergo the following changes:

1. To improve manufacturing flexibility, an existing manufacturing site in Vietnam is being added.
  - a. No impact expected to supply availability.

## Customer Impact of Change and Recommended Action:

The manufacturing site and label changes to the product do not affect functionality.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.
