

Product Change Notification

Change Notification #: 924587-00

Change Title: Select Intel® Core™ Ultra Processors (Series 1)

Change Detail: Transitioning from Intel Architecture to Intel Embedded Architecture

Date of Publication: August 03, 2026

Key Characteristics of the Change:

Product Support

Forecasted Key Milestones: (does not apply to Intel Embedded Architecture customers)

Last Demand Due Date to Local Intel Representative Prior to Product Support Change	November 06, 2026
Last Order Date Prior to Product Support Change	February 19, 2027
Orders are Non-Cancelable and Non-Returnable After	February 19, 2027
Last Shipment Date Prior to Product Support Change	August 20, 2027

Description of Change to the Customer:

No change for Intel Embedded Architecture customers.

Intel support for the products listed in the "Products Affected/Intel Ordering Codes" table below is moving to Intel Embedded Architecture for the continued support of Intel Embedded Architecture customers. The Intel Embedded Architecture terms, conditions, and pricing will go into effect for all customers after the "Last Shipment Date Prior to Product Support Change" listed above. Please contact your Intel sales representative if you have any questions regarding this change.

Intel Embedded Architecture Customer definition: Customers who purchase Intel products under terms specifically tailored for networking, edge computing, industrial, storage, communications, and embedded applications. These purchases are governed by Intel Embedded Architecture agreements, which include distinct terms, conditions, and pricing.

Customer Impact of Change and Recommended Action:

There is no expected impact to Intel Embedded Architecture customers.

For Intel Architecture customers the products listed on the "Products Affected/Intel Ordering Codes" table should be managed in accordance to the "Key Milestones" listed above. Please make purchase decisions accordingly. The Key Forecasted Milestones do not apply if you have a superseding written agreement with Intel specifying other dates. "Product Discontinuance Demand to Local Intel Representative" is the date your remaining demand for an affected product is due to your Intel representative. The "Last Product Discontinuance Order Date" is the last date Intel will accept orders for an affected product under Intel's standard ordering and supply-allocations processes. "Orders are Non-Cancelable and Non-Returnable After" (NCNR) the last date on which you may cancel an order or return an affected product. Both new orders and existing, unfilled orders (i.e., your backlog) will become non-cancelable. All affected products, whenever ordered, will become non-returnable after the NCNR Date. "Last Product Discontinuance Shipment Date" is the last date Intel will ship an affected product under Intel's standard ordering and supply-allocations processes.

Once product support is officially transferred to Intel Embedded Architecture, all discounts approved prior to "Last Shipment Date Prior to Product Support change" will no longer be honored.

Please contact your local Intel Field Sales Representative if you have any further questions about this product change notice.

Products Affected/Intel Ordering Codes:

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
